# ESTATE SERVICES

For families, executors, attorneys and advisors

## A clear place to start

An inheritance may include a few meaningful pieces or a collection no one knows much about. Our College Station team helps families identify, document, organize, divide and evaluate estate jewelry, watches and coins.

Bring the items as you found them. There is no need to clean or sort before your visit.

## THREE WAYS WE CAN HELP

### 1 APPRAISE & DOCUMENT

Formal written appraisals are available for insurance records, inherited jewelry, watches and coin collections. Jewelry: \$130 for the first item and \$85 for each additional item. Coins: \$150 per hour. Bulk pricing may be available for larger jewelry collections.

### 2 ORGANIZE & DIVIDE

We can identify and organize mixed collections, then group coins or other suitable items into lots of similar estimated value based on the number of heirs involved. We explain the scope, timing and fees before work begins; legal and tax decisions remain with the family's professional advisors.

### 3 EVALUATE & SELL

If the family is ready to sell, we offer free verbal evaluations and cash offers for estate jewelry, gold and silver, diamonds, luxury watches, bullion, collectible coins, sterling silver and other items we consider. There is no obligation to accept an offer.

## FOR ADVISORS & ATTORNEYS

We work with families, executors and professional advisors who need clearer information about inherited jewelry and coin collections. Call before bringing a large estate so we can discuss the collection, documentation needed and practical next steps.
